.Net Developer

Pentalog CHI
(Chișinău), IT, Internet

My goal is creation of comprehensive RESTFull Web API microservices infrastructure using .NET 6.0 framework aimed to provide technical data and low-level configurations of system units for variety of remove applications. Following system units are the commercial products (parts and devices) that are the "building blocks" of SYSTEM CONFIGURATOR -> globally distributed intellectual platform, used to create unified and easily maintained ventilation and fire safety system within the building.
